Request

1. Can the Parish of St Helier give a final offtaker (company name of the ultimate recycler) and destination (jurisdiction) for all the recyclates it takes from households and commercial businesses - including cardboard, paper, plastics, tins and cans, glass?
2. What are the tonnage of recyclates that currently gets collected by the Parish of St Helier ends up being recycled? What tonnage is non-recyclable?
3. What is the current annual cost for providing the full recycling services for St Helier - collection, processing, exporting + all other associated overhead costs.

Response

1. The companies which take the recyclables from St Helier are Romi Recyclage and Auda Trading Ltd; they pay the cost of shipping and delivery to the following destinations:

- Cardboard is delivered to a paper mill called Allard, South of Le Mans, where they make large rolls of brown paper which are used in the remanufacture of cardboard by gluing several laminates together.
- Light card and paper mix is delivered to Norpaper in Nantes, a paper mill that produce rolls of brown paper with a white top.
- Steel is delivered to FMGC in Soudan (NW near Chateaubriant), where they produce forklift counterweights.
- PET is delivered to FRP (France Plastique Recyclage) in the town of Limay (between Rouen and Versailles). Flakes are made from the old bottles which are then used to reproduce new bottles.
- Aluminium is delivered to Fonderie d'Anjou near Angers, where the material is melted to manufacture new products.

2. Tonnage

Year	Commodity	Tonnes	Collected	Contaminated tonnage sent to Energy From Waste Plant
2018	Cardboard	698.34	Collected	
2018	Lightcard/Paper	130.72	Collected	
2018	Office Paper	8.62	Collected	
2018	Plastic PET	15.34	Collected	
2018	Plastic PEHD	3.05	Collected	
2018	Aluminium	5.88	Collected	
2018	Steel	8.46	Collected	
Totals		870.41		39.00

2018	Glass	916	Collected	Delivered to La Collette Reclamation Site
------	-------	-----	-----------	---

3. Annual cost for St Helier.

Cardboard	Light card/Paper	Office Paper	Plastic PET	Plastic PEHD	Aluminium	Steel	£424,662.79
Glass							£76,410.71
Combined Totals							£501,073.50
