

18 June 2020

Request:

How would I go about obtaining information regarding vehicles speeding in the parish of St. Ouens over a 12-month period? The information I would like is-

How many mile over was the person going

The date

The time

The name of the road

The amount of the fine

Response:

The information is not held.

However, St Ouens Honorary police do stop members of the public and advise them regarding their driving which includes speeding.

Those that have been stopped over the last 15 months have been warned.

Stopping drivers and advising them of their driving and educating them has seen an estimated 45% reduction in speeding on parish roads.
