Request

I'd like to make an enquiry under the FOI in St Ouen.

How much has the parish spent in the last 5 years (broken down) on

- a) Repairing the car park wall following accidents at the cost cutter/parish shops
- b) Repairing other stone walls in the parish following car accidents.

Response

- a) Nil.

The wall at the Costcutter shop and the internal walls of the "shoppers' carpark" opposite the Parish Hall are not the responsibility of the Parish of St. Ouen.

The external walls of the "shoppers' carpark", bordering La Route du Marais, La Route de Vinchelez and La Petite Fosse are the responsibility of the Parish of St. Ouen but no repair costs have been incurred in the last 5 years following accidents. On occasions, when the wall has been damaged, the repairs have been paid for by the insurance company of the relevant party.

- b) Nil.

The Parish of St. Ouen is not responsible for repairing other stone walls in the Parish, following car accidents or otherwise, unless the walls are owned by the Parish.
