Request

Could you please supply all information regarding financing of The Dean & The Deanery and could you please supply the figure for the money received from the car park at the rear of the Deanery.

Also the financial monetary figure for maintenance of the building and decorating and any internal payments i.e. telephone, water, electricity.

Does The Dean receive any financial reward from The Parish or claim expenses, any further information would be greatly appreciated?

At the Rates meeting an official of the Parish said the Deanery had had £100,000 spent on decoration, can this be confirmed or denied?

I would be happy to receive the detailed expenditure on the Dean & Deanery going back the last three financial years.

Response
